BALTIMORE—THURSDAY, JULY 29, 1830.

The official list of the drawing of the MARYLAND STATE LOTTERY No. 7 for 1830, which took place yesterday afternoon, will be found on the next page. The Capital prize of FIVE THOUSAND DOLLS (No. 334) is owned in this City in a whole ticket—the ONE THOUSAND DOLLS prize, which came out to No. 8657 is divided; and also the FIVE HUNDRED DOLL: prize which is held in Quarters.

These, with the other superior prizes were variously distributed both amongst distant, as well as adventurers in the City. The fortunate holders will please present their tickets either in person or by mail, as early as may be convenient to themselves—the Cash, as usual, awaits their call.

THE NEXT SCHEME (No. 8 of the State Lottery) is published in an adjoining column, and is nearly the same as that which was drawn yesterday—these lotteries, though small, are comparatively brilliant, and very popular, arising from the superior chance to the adventurer, in consequence of the few tickets in each—the mode of drawing too, is much approved; the risk being very small, as in the purchase of Five tickets, or Five shares, there is a certainty of obtaining at least two prizes, and may draw seven.

THE DRAWING, will take place in the City of Baltimore,

On Tuesday, the 31st of August.

Under the superintendence of the Commissioners appointed by the Governor and Council.

Tickets, \$3.—Halves \$1.50.—Quarters, 75 cts.

Orders from any part of the United States either by mail (post paid) or private conveyance enclosing the Cash or Prize Tickets, will meet the same prompt and punctual attention as if on personal application. Address to

J. I. COHEN, Jr. & BROTHERS.
Baltimore.

The Register, containing the Official List, will be forwarded gratis, immediately after the drawing, to those who may request it.

Postage on Letters—Important.

In order to lighten as much as possible the expense of postage on the letters to our distant friends and customers, we have so arranged, that tickets or shares will be forwarded to them printed on the same sheet on which we write our letters; on all letters therefore sent from Cohen's Office, Baltimore, to any part of the United States, only single postage can be charged, except in cases where the number of tickets or shares ordered, occupy more than one sheet of paper—We have adopted this mode for several months past, and so much to the satisfaction of our distant friends, that many of them have suggested to us the propriety of noticing the arrangement by a paragraph in the Register, which we have thus accordingly done.

Counterfeit Five Dollar Notes of the Charleston Branch of the Bank of the United States, have been detected in Cincinnati.

Valley Bank—The annual meeting of the Stockholders of the Bank of the Valley for the purpose of inquiring into the affairs and condition of the Bank, and appointing Directors for the parent institution and its several branches for the present

year was held at the Banking-house in this place on Wednesday last.

The expose of the affairs of the Bank afforded abundant evidence of the prudent management of the concern, and proved it to be in the most prosperous condition. The last year's Directors were re-elected without opposition. After the transaction of the regular business of the meeting, the act of the last session of the Legislature extending the charter was submitted to their consideration, and a resolution accepting the terms therein proposed was offered and unanimously adopted.

THE GREAT ECLIPSE OF 1831.—This eclipse which will happen on the 12th of February, will be one of the most remarkable that will again be witnessed in the United States for a long course of years. The apparent diameter of the sun will be $3\frac{1}{2}$ minutes of a degree, that of the moon $31\frac{1}{2}$. Of course the eclipse will be *annular*; that is in all places where the sun will be centrally eclipsed, at the moment of the greatest obscuration, it will exhibit the appearance of a beautiful luminous ring around the moon. Eclipses of this kind are of less frequent occurrence than those which are total. The centre of the eclipse will first touch the earth's disk in the great Pacific Ocean on the morning of Feb. 12th, in lat. 13 deg 56 min. N. and lon. 140 deg. 3 min. west from Greenwich. At this point the sun will rise centrally eclipsed at 34 minutes past 6 o'clock; or at 3 hours 54 m. P. M. apparent time at Greenwich. Thence proceeding by a gentle curve, to the South and East, in 16 minutes it will enter upon the coast of California, in lat. 27 deg. 30 min. N. Thence curving Northwardly, in 47 minutes more it will enter the United States near the S. W. corner of Louisiana, and in 6 minutes will cross the Mississippi, near St. Francisville. Passing through the states of Mississippi, Alabama, and Georgia, in 27 minutes more it will arrive at a point in Pendleton county, in South Carolina, in lat. 34 deg. 37 min. N. lon. 82 deg. 38. min. W. where the sun will be centrally eclipsed on the meridian. Thence passing over North Carolina into Virginia, in 14 minutes it will cross James River, near Richmond, and continuing in nearly a direct line, in 8 minutes will leave the Jersey shore at Little Egg Harbor, passing a few miles east of Montauk Point, in 7 minutes it will leave the eastern shore of Cape Cod at Wellfleet, and in 6 minutes will enter upon the southwestern extremity of Nova Scotia. Thence passing over the island of Newfoundland, and increasing in velocity, as it approaches the verge of the earth, in 19 minutes more it will leave its disk in lat. 51 deg. 58 deg. 40 min. W. lon. at which point the sun will set centrally eclipsed at 4h. 30m. or 6h. 25m. Greenwich time.

The eclipse will have been 2h. 31m. in crossing the earth's disk, and about one hour from its entrance to the time of its leaving the United States. A line drawn through the above points on the Map of North America, will pass through all those places where the eclipse is central. Two other lines on each side of the first, at the distance of 50 miles, will include all places in the United States where it will be Annular. Its penumbra will precede and follow the centre, at the Mean interval of one hour and thirty minutes, making on the central track the beginning and end of the eclipse. Lines drawn on a map of the United States, parallel to the central track at intervals, on the S. side of 200, 135 and 175 miles, and on the north at intervals of 225, 250, and 3 hundred miles will exhibit, nearly, the respective points where the sun will be 11, 10, and 9 digits eclipsed. By marking proportions along the central path of the

eclipse, of the intervals of Greenwich time and proportioning the hour lines at right angles, the time and phases of the eclipse may be found for nearly any place in the United States, observing to reduce the Greenwich to that of the place of observation.

This eclipse will be visible over every part of the North American continent and the West Indies, and will be seen as far south as the city of Quito in S. America.

From the Cincinnati American.

Spelling Puzzle.—We submit to our readers the following ten lines of rhyme, (poetry we can scarcely call them,) as an amusing exercise in spelling. The words are generally common, but they will be found such as will put to blush the accuracy of the most learned, *making the dictionaries of either Johnson or Walker the umpire*. Any person may safely bet with the best scholars, whose attention has not before been specially called to the lines, that they will mis-spell twelve words, at least, out of the twelve lines. We have frequently known persons of liberal education to spell incorrectly from twenty to twenty-five of the words. There are, probably, very few, who would not be willing to wager that they would not misspell twelve words in ten lines of poetry.—The words below are spelled correctly.

A COBBLER with headache, and a pedlar decrepit, once stopped,
A tenon from a mortise of their wagon having dropped;
The felloes of their wheels, which of gnarled chestnut were wrought,
Out travelled their naves at a rate beyond thought.
They were loath of expense, for with a queer crony,
They ate a codled potato, from the housst of their pony.
Their wares were a colander, weavers' sliae and a stirrup,
A saddler's awl, sieve, scythe, and a rundlet of sirrup.
A bousy young dandy, with trousers so neat,
Came with noggin and flagon, and gave them a treat.

ARMED NAVY OF EUROPE in 1829.—*Britain*: Men-of-war from 80 to 120 guns, 54; from 74 to 78 guns, 77; frigates, from 50 to 60 guns, 57; from 42 to 48 guns, 112; corvettes, from 10 to 38 guns, 178; brigs, 158;—Total, 610.—*France*: Men-of-war, 33; frigates, 41; smaller craft, 148.—Total, 222.—*Russia*: 81 ships all sizes.—*Netherlands*: 12 of the line; 30 carrying altogether 720 guns; and 63 unrigged.—*Spain*: 6 men-of-war; 12 frigates; and 94 other vessels.—*Portugal*: 2 of 72 guns; 6 frigates; 7 corvettes; 2 brigs; 6 small r. vessels.—Thus England alone possesses 131 ships of the line, and altogether 610 ships of war, containing 22,920 guns; while all the other European navies amount to 93 ships of the line, and 889 other vessels, with 18,761 guns. *United Service Journal for May.*

SARATOGA SPRINGS—During the week ending on the 18th inst. six hundred and eight visitors arrived at Saratoga. Of this number 114 are from New York, 48 from Philadelphia, 40 from Boston, 31 from Albany, 29 from Baltimore, 16 from Charleston, S. C., 5 from Savannah, and the remainder principally from other towns in the United States and the Canadas. The whole number of visitors now in the village is estimated at not less than 800.
